PREFACE

THE Committee on the printing of this partial List of the Pupils who attended the Schools of the City of Charlestown from 1847 to 1873 presents this Register to the members of the Old Charlestown School Boys Association only, in honour of those of our schoolmates and teachers who are now living, and in memory of those who are no longer with us.

The Compiler began the work of collecting these names at the time of the "Get Together" held on the Bunker Hill Monument Grounds in June, 1914, using only such of the School Records as were to be found at that time in the possession of the teachers of the Grammar Schools. In every school it was discovered that some or all of the old Records had been either lost, mislaid or destroyed, which made it impossible to present a complete record of many pupils: three years of diligent research work, however, has enabled him to recover many names and dates, and these have helped, materially, toward accomplishing the result here presented.

The Committee originally intended to print each school List separately, but the lost records made that plan undesirable; consequently, it was decided to print all the names in one alphabetically arranged Register. At great expense of labor and time the work has been amplified by giving each pupil's residence, the names of the school or schools he attended, and the years of his attendance; by comparing this Record, therefore, with the Teachers' Register, one can find the names of his teachers in any given year, or throughout his entire course, so far as the official Records have survived. Errors and omissions will be found, but these, for the most part, must be ascribed to the failure of original sources.

Your Committee will welcome any information, however slight, which may enable it to trace any of the missing volumes, in order that the Record of the pupils may be made as complete as possible. Such information should be sent to Mr. James E. Stone, at No. 277 Medford Street, Somerville, Massachusetts.

This Register will recall to our memory the names of some of our schoolmates, among both the living and the dead, whom we have entirely forgotten.

The hearty cooperation of the Folsom Engraving Company and The University Press in reproducing the work of the Compiler's own hand merits the warmest recognition of the Association.

There remains to be compiled and printed the Register of the High School: and of the Training Field, Harvard and Winthrop Grammar Schools, if their Records, or any of them, can be found. The Committee is credibly informed that the late Mr. Abraham B. Shedd, long the Secretary of the Training Field School Association, had in his custody the manuscript records of that school and a valuable abstract of them. Since Mr. Shedd's death these documents have been borrowed and have not been returned. It is earnestly hoped that these precious records may yet be put at the service of your Committee, who will promptly compile a Register of this historic school, preparatory to having it printed, together with any additions to the Record here presented which may subsequently be secured, and certain information which has been already gathered concerning the early history of the Charlestown Schools.

On behalf of every member of the Association, your Committee expresses grateful appreciation of the unceasing brotherly interest of our Prescott School Boy whose public spirit and noble generosity have made it possible to print, in a limited edition, this unique record of more than 6500 Charlestown School Boys; and it does not forget, nor fail to appreciate, the equally fraternal interest, public spirit, and noble generosity of our Harvard School Boy who gave to us in print the Teachers' Register, which was distributed to all the members at our first Annual Dinner, in April, 1915.

James Edward Stone Henry Herbert Edes
